Events & Celebrations

20 JUN **International Yoga Day**

MM School teachers and administrative staff observed International Yoga Day on the school premises with enthusiasm and participation. The session highlighted the importance of yoga in promoting physical fitness, flexibility, balance, and mental well-being. Regular yoga practice helps reduce stress, improve concentration, enhance posture, and develop mindfulness. The observance encouraged everyone to embrace yoga as a simple and effective practice for maintaining a healthy, peaceful, and balanced lifestyle.

23 JUN **Bienvenidos - Reopening Day**

After a refreshing summer vacation, MM School welcomed students back with excitement and cheerful energy. The reopening day was filled with various engaging activities, fun games, and interactive sessions that helped students reconnect with their friends and teachers. The joyful atmosphere made the transition back to school smooth and enjoyable, setting a positive tone for the new academic term. Students participated enthusiastically and returned to their classrooms with renewed energy and enthusiasm.

REOPENING DAY

The reopening of MM School after the summer break was marked by a vibrant blend of joy, creativity, and togetherness. The day was designed to ease students back into the rhythm of school life through a range of engaging activities that encouraged interaction, expression, and active participation. Rather than beginning with routine academics, students were welcomed into a lively and relaxed environment where they could reconnect with their peers, teachers, and the school community.

The day featured engaging ice-breaking sessions that helped students reconnect and share their vacation experiences. A creative puppet-making session encouraged imagination, artistic expression, and teamwork. Students also enjoyed a refreshing swimming session, adding fun and physical activity to the day. The Holiday Homework Showcase gave students an opportunity to present their creative work and appreciate the efforts of their peers. Circle Time provided a warm space for sharing, listening, and building connections. Together, these activities created a lively and welcoming atmosphere, making the transition back to school smooth, enjoyable, and full of enthusiasm.

Book Free Day

Grade 1-8

Mythological Characters

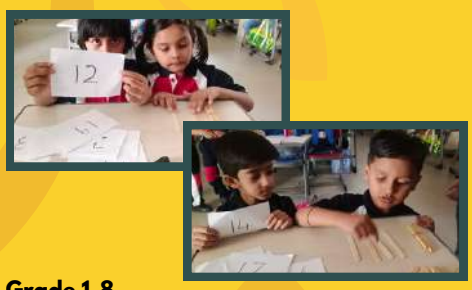

Students explored inspiring mythological personalities such as Hanuman, Gautam Buddha, Narasimha and Parashurama through engaging stories and discussions. The sessions highlighted courage, wisdom, compassion, discipline, justice and responsible action, helping students connect timeless values with life and personal choices.

Grade 1-3

Panchatantra Stories

Panchatantra stories provided younger students an enjoyable way to learn values beyond textbooks. Stories highlighted friendship, honesty, patience, intelligence, cooperation and wise decision-making. Interactive storytelling and discussions helped students understand the underlying morals and relate them to familiar situations in their daily lives.

Grade 1-8

Stories from the Puranas

Selected Puranic stories, including narratives around Hiranyaksha and Dharma, introduced students to ideas of duty, righteousness, humility and consequences of actions. Through age-appropriate storytelling, students explored moral choices and the responsible use of power while developing appreciation for India's rich narrative traditions.

Grade 4-8

Upanishad Lessons

Middle-school students explored thought-provoking Upanishadic stories such as Nachiketa and the Two Birds. The sessions encouraged curiosity, self-awareness, reflection and deeper thinking about knowledge, choices and human nature, enabling students to look beyond the narrative and discover its philosophical and symbolic meanings.

Grade 1-8

Recreational Activity

Recreational activities provided students with a joyful break from their academic routine. Games, interactive tasks and group activities encouraged teamwork, communication, participation and spontaneity. The segment promoted peer bonding and social skills while reinforcing the idea that meaningful learning can also take place through play and recreation.

Grade 1-3

Creative Arts

Art sessions offered students a refreshing break from academics while encouraging creativity and self-expression. Through drawing, colouring, craft and creative activities, students developed imagination, observation and patience. The sessions provided a relaxed environment where students could freely explore ideas and appreciate artistic expression.

Club Activities

The Literary Clubs at MM School offer a progressive journey into language, literature, and creative expression, with separate clubs designed for Grades 1–2, Grades 3–5, and Grades 6–9. The youngest learners discover the joy of words through rhymes, recitation, storytelling, fables, and role-play, while Grades 3–5 explore picture composition, children's literature, poetry, and creative writing to develop imagination and expression.

For Grades 6–9, the focus moves towards deeper literary appreciation and analysis, including poetry, novels, epics, poetic devices, characterization, themes, and plot. Across all levels, the clubs encourage students to read, interpret, imagine, and create, including opportunities for creative writing in both English and Hindi.

The Science Clubs at MM School encourage curiosity, experimentation, and scientific thinking through hands-on learning, with separate clubs for Grades 3–5 and Grades 6–9. Students explore experiments, model-making, anatomy, measurements, practical applications, laboratory activities, scientific projects, and research-based learning, developing observation, problem-solving, and logical thinking skills. Alongside these, the school also has a CBSE-recommended Eco Club, which promotes environmental awareness and responsible citizenship through activities centred on sustainability, conservation, biodiversity, waste management, and care for the natural environment. Together, the clubs encourage students to understand science not merely as a subject, but as a way of observing, questioning, experimenting, and creating a more sustainable world.

The STEM & AI Club at MM School, designed for students of Grades 5–9, introduces learners to the exciting world of coding, technology, artificial intelligence, and machines through practical and project-based learning. Students develop computational thinking by exploring coding, programming logic, robotics, machine mechanisms, and AI-based applications. Through hands-on projects and challenges, they learn how machines work, how technology can solve real-world problems, and how ideas can be transformed into functional solutions. The club encourages curiosity, creativity, logical reasoning, problem-solving, and innovation, preparing students to become confident creators and thoughtful users of emerging technologies.

Club Activities

The Kinesthetic Clubs at MM School are designed for students of Grades 3–5 and Grades 6–9, with a strong focus on developing sporting skills, physical fitness, discipline, and teamwork. Through structured training in basketball, football, and cricket, students progressively build fundamental skills before advancing towards greater technical proficiency and game expertise. Younger learners focus on movement, coordination, basic techniques, and sporting fundamentals, while senior students work on advanced skills, tactical understanding, game situations, and performance development. The clubs provide a purposeful sporting environment where students learn to practise consistently, work as a team, demonstrate sportsmanship, and pursue excellence while enjoying an active and healthy lifestyle.

The Art Clubs at MM School nurture creativity, imagination, and artistic expression through age-appropriate experiences, with separate clubs for Grades 1–2, Grades 3–5, and Grades 6–9. Students in the foundational years explore colours, basic shapes, drawing, colouring, craft, and simple paper activities, developing confidence and fine-motor skills. Grades 3–5 expand their creative horizons through colour theory, the colour wheel, origami, paper craft, clay modelling, and creative compositions, encouraging experimentation and originality. Grades 6–9 engage with more detailed artistic techniques, model-making, mixed mediums, design, and creative projects, learning to translate ideas and perspectives into visual forms. The clubs encourage students to observe, imagine, experiment, and create, transforming artistic curiosity into meaningful self-expression.

The Optics Lab at MM School, designed for students of Grades 6–9, provides an interactive space to explore the fascinating world of light through practical experimentation. Students investigate concepts such as reflection, refraction, dispersion, lenses, mirrors, shadows, and image formation using hands-on activities and laboratory equipment. The lab encourages students to observe, predict, experiment, and draw conclusions, helping them connect classroom concepts with real-world phenomena. Through experiential learning, students develop scientific curiosity, analytical thinking, observation skills, and problem-solving abilities, making the study of light more engaging, visual, and meaningful.

Happy Hours

At MM School, we believe in nurturing well-rounded individuals. This philosophy led to the introduction of our unique 'Happy Hours' programme, an exclusive initiative that reserves the last session of every school day for outdoor sports and activities.

Under the expert guidance of renowned coaches, students enthusiastically engage in games like basketball, cricket, football, skating, and tennis. This programme not only promotes physical fitness but also instills discipline, teamwork, and a healthy competitive spirit. By balancing rigorous academics with dynamic physical activity, we ensure that our students leave school each day with a sense of accomplishment and holistic growth.

Career Counselling Programme

Preparing for Tomorrow:

MM School Conducts AI-Focused Career Counseling

MM School hosted a forward-thinking career counseling session tailored for students of Grades 8 to 12, focusing on the transformative role of Artificial Intelligence in the modern workforce. Industry experts guided students through emerging career paths, the importance of technological adaptability, and the essential skills needed to thrive in an AI-driven future.

The highly interactive forum provided an excellent platform for students to voice their doubts and clarify queries regarding subject selections and future job markets. This timely initiative successfully empowered students to look beyond traditional career models and make well-informed, futuristic academic decisions.
